

## Birth Chart Report for Angelina Jolie

Jun 4, 1975, 9:09:00 AM PDT Los Angeles, CA (34N03, 118W15)

### Introduction

Your natal horoscope, or birth chart, is a snapshot of the heavens at the moment you were born. It shows what the sky actually looked like at the time and place of your birth. Astrology in modern times has renewed the ancient discovery that the symbolism of the planets that surrounded you at birth describes your character and personality. Planets that were directly overhead at the time and place of your birth are most important, and would appear at the very top of the chart or the Midheaven. Planets that were just rising above the horizon in the East at the time of your birth would appear near the horizontal line at the left hand side of the chart or the Ascendant. If the Sun appears in the top half of the chart, then you were born during daylight hours and have a more outer directed personality. All of these features reflect the factors at play in the Universe at the moment of your birth and are significant indications of the basic qualities and tendencies that continue to make up your personality.

Each planet's relative position in the sky and significant angles that it makes to the other planets, or aspects, are examined in this report. Please keep in mind that you are not limited by these descriptions. Your natal horoscope does not prescribe your fate. The stars incline, they do not compel. Your birth chart shows potentials that you can either struggle to fulfill or deny. The choice is yours. Beneficial aspects, or planetary positions, are areas of life in which you show natural talent and achieve easy success. Challenging aspects, or planetary positions, can become your greatest asset if you can learn to be aware of how that dynamic plays out in your life and the world at large. The strongest and most important features of your chart are described first. For definitions of astrological terms, please refer to the glossary at the end of this report.

### Chart Patterns

#### T-Square, focal planet Venus

You have a T-Square in your chart. With this planetary aspect pattern, in which three planets or conjunctions are in square with one another, you have a high degree of motivation and drive. Your energies are most easily and habitually expressed by the energy of the focal point, the middle of the T-Square. You may also compensate for overdoing in the area of life represented by the focal point, by leaning toward the empty pattern element opposite the focal point, seeking to balance your activity. The lesson of this planetary aspect pattern is in learning to use your considerable energy wisely in the pursuit of your true goals. There is great tension represented by the focal planet or planets in your chart, where conflicting parts of your personality attain their focus and peak of energy, and you may observe compulsive behavior in the area of life represented here.

Venus in Cancer gives a sensitive and caring nature, very devoted and loyal, with emphasis on

security. Your affections operate at an unconscious and instinctual level, and apply in a general way to everyone you connect with. You are fond of children and the life of the home. You are likely to maintain close ties with your parents and other family members, and may be mothering rather than mating in the expression of your relationship energy. You are gentle, receptive and charming, and inclined to the sentimental or nostalgic. The Sound of Music may be your favorite movie. You feel best when you are involved the closeness and intimacy of a family relationship.

Venus in the First House represents an immediate connection within you between art and selfexpression. You are undoubtedly an attractive and likable person, who is also interested in the arts and in the aesthetics of your environment. In fact you likely make a work of art out of your presentation of yourself to the world. Your love energy is impulsive and enthusiastic. You are passionate and also restless in all forms of relationship, and may need to develop a sustaining quality to your passion in order for the relationship to last. Your charming and likable manner allows things to come easily to you, perhaps even a bit too easily. It benefits you to develop humility and abiding appreciation so as not to take these precious gifts for granted. It may also be to your advantage to explore working harder for what you get in the course of your life's journey, as you grow into your more fully developed future persona.

## **Important Features**

### **Mars in Aries (10° Ari 42')**

#### **Mars in the Ninth House**

Mars in the Ninth House (or sign) gives a friendly and optimistic nature. You are likely to lead a physically active life, and are fond of sports and gambling. You are idealistic, outspoken and honest with your opinions. You are also likely to be spontaneous and even a bit impulsive. You can be scattered in the application of your energies, and it will perhaps benefit you to work at becoming more reliable. You have a great propensity for learning. Your energy is most naturally invested in adventures of the higher mind: travel, education, perhaps publishing. You like many different pursuits, and have a kind of haphazard way of going about things that can get you into trouble. You may tend to miss the details, by fixing your gaze on "the big picture." You also can be dogmatic at times, when you get too carried away with your own point of view. You profit by learning to slow down your enthusiasm and focus your concentration on reachable goals.

Mars in Aries (or the first house) gives an independent and positive nature, and an outwardly directed and ambitious orientation. You possess great strength of character as well as an inordinate degree of self-assertion. You are a formidable adversary, tending to react aggressively when threatened. You are extremely courageous and enthusiastic, traits that will take you far in life, but you may need to work on a tendency of being quick to anger and you can behave impulsively at times. You may also cause trouble for yourself by being unwilling to give way and make concessions, especially if Mars is afflicted in your chart by challenging planetary aspects. It benefits you to learn the art of compromise. You can also benefit from cultivating patience and tolerance to offset your occasional short temper. You will gain in the long run when you practice self-control and display a great degree of unselfishness in your dealings with others.

### **Jupiter in Aries (17° Ari 25')**

#### **Jupiter in the Tenth House**

Jupiter in the Tenth House (or sign) gives you a serious and conscientious personality. You are also very practical and have a talent for working with the public. You tend to be extremely careful

with money, making a good manager, and have a strong drive to achieve success. You may be perhaps somewhat miserly with the gift of your affection. You can also be fearful of risking the fruits of your achievement, definitely not a risk-taker. You may refrain from taking chances that would in fact succeed. Although you have good prospects in life, your opportunities usually come from hard work and dedication. Tradition plays a large part in molding your ideals. You are noble and honorable in your connection with society around you, and enjoy being known as a good role model for others to follow.

Jupiter in Aries (or the first house) gives you a personality strong in self-esteem. You have expansiveness and abundant energy, and are likely to have good luck with the material side of life. You love freedom and independence, and possess an extremely optimistic nature. You see possibility in everything, a person for whom the glass is definitely "half-full" rather than "half-empty". A feeling of can-do is therefore an important component of your self-image. This is valuable for you, and gets you far in life, but you should beware of letting this faith in your powers express itself as mere egotism, especially in the case of challenging aspects between Mars and Jupiter in your chart. Your enthusiasm may need to be tempered with a healthy sense of limitation.

### **Moon in Aries (13° Ari 05' 03")**

#### **Moon in the Ninth House**

The Moon in Aries gives an ardent nature with inclinations to impatience, independence and impulsiveness. With this placement, you have a high energy level. You also have a strong competitive streak, which, together with your attack first attitude, may conceal subtle feelings of insecurity. Your emotions are keenly felt, direct and spontaneous. You may have to guard against a quick temper. You should also guard against a tendency toward a too hasty reaction to situations, rather than a more carefully reasoned approach. You are most comfortable thinking of yourself as strongly independent with great physical daring and courage.

The Moon in the Ninth House represents an emotional sensitivity in the area of higher ideals and visionary philosophy. You may be something of a dreamer and tend to romanticize your emotions. Your philosophy is based on your feelings and sensitivity to your ideals regarding the superconscious realms. You constantly study your experiences to redefine your own philosophy about life, which may be the basis for your own vision of religion. Your philosophical attitude may seem difficult for other people to understand. You may suffer from a utopian ideal of wanting to feel good all of the time which can cause you suffering. You tend to be a dreamer yet your dreams may reflect truths about reality when you are in tune to your higher awareness of consciousness. You love travel and are likely to take many journeys. You are constantly trying to maintain your ideal emotional state of being. You are a natural teacher. You have a strong need to share your philosophy of life with other people. In this way, you can share your refined imaginative and creative insights and show others how to refine their inner visions along with you.

### **Neptune in Sagittarius (10° Sag 20'R)**

#### **Neptune in the Fifth House**

Neptune in the Fifth House (or sign) gives a highly creative individual who is helpful and kind. You are likely to be artistic or musical. You are softhearted, and you may be perhaps even too willing to surrender yourself for the good of others. You tend to be very self-sacrificing with your children, giving of yourself without receiving very much in return. You may experience difficulties in feeling free to simply assert yourself. Your creative energies run to the mystical, and you are simultaneously present with other people and yet paradoxically also far, far away. You have the soul of a romantic. You have a powerful imagination, and can be a good actor both professionally

and in everyday life. You potentially have a great creative and healing capacity for other people, which is based on universal and spiritual energies rather than on personal ones. You could benefit by striving to bring your imaginative energies to the world in a form that transcends purely egocentric creativity.

The following applies to your generation as a whole as well as to you personally:

Neptune in Sagittarius (or the ninth house) gives an impressionable, idealistic and very intuitive personality. You are inclined to the mystical, and are high-minded, seeing life in terms of visionary and poetic feelings rather than in practical terms. You are capable of great belief in the unknown and unproven. You are inclined to scholarly pursuits, but may feel a lack of motivation or vagueness with respect to educational goals. You also have a strong desire to explore and travel, to try novel ideas and experiment with new ways of doing things. You may be attracted to spiritual studies, or psychedelics, as a way to achieve a transcendent state of mystical union with all creation. Your challenge lies in relying on your considerable inner vision to unfold your own unique pathway, to make concrete and real your flights of consciousness to other realms, and bring this vision back with you into society at large.

### **Pluto in Libra (6° Lib 31'R)** **Pluto in the Third House**

Pluto in the Third House (or sign) gives an acute and penetrating mind. With this placement you have unusually clear and direct communication skills, and you may also be compulsively attached to your speaking and writing ability and to mental pursuits in general. You possess a remarkable facility for seeing into the depths of the circumstances surrounding an event or a communication from another person, and would make a good detective. You also are likely to have a sharp tongue, and can powerfully affect others through your speech. Peer relationships when you were young may have been difficult, affecting current attitudes, so that you may feel that you have to be on guard, or manipulate situations in self-defense. You also enjoy expressing your point of view, and are apt to feel strongly about being correct in what you say, in spite of what others may think. You benefit when you avoid a tendency to be dogmatic or manipulative in your dealings with others. When you have made some movement toward finding a positive expression for your mental energies, you can be a source of inspiration as you use your powers of insight and expression wisely and responsibly, and share your mental gifts for the betterment of society.

The following applies to your generation as a whole as well as to you personally:

Pluto in Libra (or the seventh house) gives you a focus on forming close emotional attachments. You may have difficulties in marriage and partnerships; but there are also great rewards to be gained in this area. You may feel a compulsion to be liked by others. Conversely, you can also become involved in power struggles with partners. You have a depth of passion within you that isn't obvious or recognized, and you may seek to project this power drive onto a relationship partner, rather than directly own up to it. You may therefore find yourself in relationship with dark or manipulative personality types, who may exhibit openly the tendencies you have yourself at a more hidden level. You are likely to go through many changes in your relationship dynamic, as you come to understand more fully your inner process. You may exhibit strong attractions toward close involvement with another person, and simultaneously have fears regarding such attachments. Time and moving through the fires of difficulties may lead you to a painful re-examination of your goals in these areas. Wisdom is required in the handling of close relationships in order to transform the partnership energy into a growing and conscious act of sharing, and to find your own inner strength independent of others around you.

## **Sun, Moon, Rising Sign Features**

### **Cancer Rising**

The Rising Sign is the mask shown to others, also the physical appearance.

People with Cancer rising are nurturing and protective of other people. Your ruling planet is the Moon, and you tend to be moody, with your emotions constantly changing. You are security-conscious and your home is important to you. The position of the Moon in your chart is very important, and shows the way your personality is likely to develop. If the Moon is well-placed by sign and aspect, life flows easily for you, while stressful aspects or sign placement may reflect difficulties (check the position of the Moon). Cancer people are apt to appear passive, and to rely on their feelings. You are subtle, rather than direct, and are likely to reflect the moods of those around you. You are also good at working with the public. You are likely to be involved with the past in some way, because the sign of Cancer is the sign of nurturing, protecting, sustaining, and is strongly tied to the past, and Karma. You are probably the type who can be happy for hours in an antique store. Cancer people tend to collect the residue of past experience and hold onto it, as a coloration of their present activities, leading to instinctual action. You can benefit from shedding the light of conscious reason on your habitual patterns, and focusing on your true goals.

### **Venus in strong conjunction (within 0.7 degrees) with Ascendant**

*The strongest blend of the energies represented by these two planets.*

This conjunction gives a warm-hearted, affectionate and perhaps manipulative personality. You are cheerful, charming and likable. You may also be very beautiful, particularly at the soul-level. You are sensitive, with an inclination for artistic pursuits and refined surroundings. You may possess considerable talent for the arts, especially music and dance. Relationships are important to you. You are also firmly in contact with what you want and you are likely to be quite successful at getting it. With your poise and charm, this is usually not difficult. In fact, things may be a little too easy for you, and you benefit from finding the depth of character that varying experience can bring as you go through life.

### **Uranus in strong square (within 0.1 degrees) with Ascendant**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

This aspect gives an eccentric and strong-willed individual. You are an original and independent thinker with an active, scientific mind, futuristic in outlook, and you are capable of bringing new ideas into being. You are inclined to be reckless, and periodically start over in your life, completely eliminating previous foundations. Because you are unpredictable at times, it can be hard for others to be comfortable with you. You are inclined to be nervous and impatient, or to shy away from commitment and responsibility. You can be determined to get your own way, and love freedom from conventionality. You are likely to rebel against the norm, or conflict with others in this area. You can benefit from trying to control your energetic and visionary impulses in order to make these more concretely available in your own life, and in the life of society around you.

## **Chiron in strong square (within 2.1 degrees) with Ascendant**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

With this aspect between Chiron and the Ascendant in your chart you are likely to experience painful realizations throughout your own life and have the ability to heal others as well. Chiron is called "the wounded healer" because it represents the archetype of imperfection and loss which when integrated leads to compassion and understanding of others' suffering. The empathy and the understanding that are gained through life's trials provide the ability to serve as a helper and a healer for others. You are more invested in this archetype than most, since Chiron is in a powerful connection with your rising point, symbolizing the self that you present to the world, esoterically your true self. You have probably experienced pain and frustration related to your self-concept, or there could have been trauma in your early years concerning parental protection which may have been withdrawn too suddenly or misapplied, or perhaps similar issues with your peers. These early experiences may have made it hard to accept the love of others in your adult life. It is good to make the effort to connect yourself consciously with any painful events that may be buried in your unconscious, so that these will no longer have so much power over you. Since you have a great deal compassion and empathy for others you are likely to be someone with career possibilities in the helping professions. You may strongly desire to help other people, and yet be unable to give them the full benefit of your higher self. It is good to integrate your past experiences, no matter how painful they may have been, and no matter how painful these feelings continue to be for you in adult life. When you have made a solid transition from existing in a divided state to a more balanced and integrated whole, you can be of much more actual service to other people, since you are more available to yourself.

## **Sun in Gemini (13° Gem 25' 19") Sun in the Eleventh House**

The Sun represents your will and purpose, your sense of vitality, and your evolving higher Self. In Gemini it is Mutable-Air, and rules the arms, the shoulders and the lungs. Your ruling planet is Mercury. Gemini is the sign associated with communication, logical thought processes (based on duality) and the conscious mind. Gemini people tend to be airy and intellectual, glib of tongue and curious about life and other people. You can experience two sides of things at the same time, and you may tend to be flighty. You move through life like a butterfly, engaging in many varied experiences to gain knowledge. You are witty and have a good sense of humor, and you are likely to be an excellent conversationalist. You make a good teacher. You can be nervous and high-strung, and may be mischievous. Unlike possessive Taurus, you tend toward liberty in relationship. You can be easily bored, but under the control of selfdiscipline you have tremendous intellectual and artistic possibilities.

The Sun in the Eleventh House represents a concentration of one's vital force to belong, to function as part of a group consciousness, and to integrate with the human family. You enjoy membership with groups, and with groups of friends, and may find your identity in that way. You may be drawn to a collective awareness that has a specific social, humanitarian, religious, or political purpose. In whatever group or groups you choose to participate in, you easily align your ideals and sense of purpose with those of the collective. Your sense of group awareness leads you to become a focus of leadership within the group. Whether a formal group leader or an influential friend among a group of friends, your awareness of connectivity impacts those in your circles and opens them to sharing common goals and objectives. Your intuitive awareness of collective needs,

wants, and desires may give you a sense of having a mission in life. Surrounding yourself with like-minded people gives you a sense of security and meaning, and you may even be vulnerable to losing your personal identity to a group cause or belief system. You can transcend this difficulty by creating friendships where you can bond with individuals rather than common collective ideals. You benefit by identifying your unique attributes as an individual and becoming aware of how they fit within a group dynamic in order to recognize your personal purpose within the collective mind.

**Sun in strong sextile  
(within 0.3 degrees) with Moon**

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives a well-adjusted and stable personality. You proceed with confidence and a sense of well-being to accomplish what you set out to do. You are likely to be healthy, optimistic and popular, and look upon life's problems as challenges to be overcome, rather than as obstacles. You have experienced your parents as harmoniously related, and in your own relationships you expect sound communication and mutual understanding. Your family is important to you. You are poised and cheerful, and your creativity flows freely. It benefits you to overcome complacent or lazy thinking and to rise to the challenge of tackling any problem areas in your life.

**Sun in strong sextile  
(within 2.7 degrees) with Mars**

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives a self-confident, active, and decisive personality. You have great physical vitality and stamina, are out-going and like to exercise your mental and physical powers. You are usually happiest when engaged in some form of activity. Right and constructive action seems to come naturally to you. You are likely to be outspoken, and possess great abilities in combat as well as athletics.

**Sun in strong opposition  
(within 3.1 degrees) with Neptune**

*The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

This aspect gives a highly sensitive, visionary and creative individual. You are probably somewhat unworldly, possessing an ethereal quality, a marked remoteness from ordinary reality. You are likely to be artistic or musical. You are the softhearted type, and you may be too willing to sacrifice yourself for the good of others. You may also be dissatisfied with your work activities, or life in general, leading to the habit of evading decisions, or to other forms of escapism. In feeling unfree to assert yourself, you may engage in self-deceptive illusions, or even the use of drugs. You also may have issues with deceptions practiced on you by other people. In order to develop a clearer sense of self, accurate feedback from other people is crucial, so that to avoid these traps, you should strive for utmost honesty in your dealings with others. The otherworldly energy of Neptune must be used wisely. When the proper outlet is found, tremendous creativity is possible, perhaps manifested through artistic channels: music, drama, poetry. Your lesson in all this is to achieve a balance between the spiritual dimension of reality and ordinary life.

**Sun in sextile**

### **(within 4.0 degrees) with Jupiter**

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives an optimistic and generous individual, with good spirits and abundant energy. You are quietly spiritual in your approach to life. You also have good executive abilities, and make a capable leader. You are fortunate materially, and have simple tastes, so that your wants are few and easily satisfied. Good fortune follows you through life.

### **Sun in sextile (within 4.4 degrees) with Midheaven**

*The planetary energies flow together, open into new possibilities, new connections.*

This aspect gives a strong personality, very involved in work and career. You can be autocratic and may appear selfish, or bent on getting your own way. You have a terrific sense of the positive value of achievement, and will likely go far, but you might need to beware of too much ego-involvement in being on top.

### **Moon in strong conjunction (within 2.4 degrees) with Mars**

*The strongest blend of the energies represented by these two planets.*

This conjunction gives a courageous and vigorous personality. You are bold and daring, full of enterprise, and out-going. You tend to be impulsive, and to take unnecessary risks, and you are subject to temper, even rages. But you are also likely to be a profound and penetrating thinker with an unusually good rapport with the public. You are kind and benevolent in your intentions, although you may tend to be extreme in your behavior.

### **Moon in strong trine (within 2.8 degrees) with Neptune**

*The planetary energies flow smoothly; the connection is easy and beneficial.*

This aspect gives an emotionally sensitive, idealistic and loving personality. You possess an ethereal quality, and are a lover of music and the arts. You have the potential for powerful psychic abilities. You are the softhearted type, and you may be too willing to sacrifice yourself for the good of others. You were probably strongly influenced by your home life, and may tend to idealize these formative experiences. You could have issues with self-deception or experience discontent with the practical realities of life. Your home is important to you, and you may change residences frequently in search of your ideal environment, or dream of the ideal romantic attachment without ever finding the perfect mate. You benefit from striving for greater clarity in applying your high ideals to the real world.

### **Moon in quintile (within 2.8 degrees) with Mercury**

*The planetary energies are positively linked, subtle, and spiritual in dimension.*

This aspect gives a kindly, sound and logical mentality. You are a good communicator, and are able to express your emotions easily. You are an inquisitive student of life, and are also excellent

at working with the public. You usually prefer plain and direct speech, and you are judicious and honest in your approach to life.

### **Moon in conjunction (within 4.3 degrees) with Jupiter**

*The strongest blend of the energies represented by these two planets.*

This conjunction gives a loving, kind and nurturing personality, friendly and sociable, generous and highminded. You possess an inherent spirituality which is displayed not in philosophy, but in acts of love and caring. You work well with the public, and attract material rewards without seeming to try for them. You are a true humanitarian, honorable and dependable in your dealings with your fellow man, and possess a natural sense of security based on what was probably a happy childhood. There may be an inclination toward the poetical and mystical or perhaps the marvelous side of life.

### **Moon in square (within 4.3 degrees) with Saturn**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

You may appear to be rigid, rather letting your emotions flow freely. This aspect gives a deepening and concentrating, or a blockage in the expression of your feelings. You may be extremely sensitive. You may have had problems with the parental care and guidance you received as a child, or you may be fixated on one parent, especially your mother. There may be a sense of over-identification with mother, or possibly an unconscious rejection of her influence. You may have experienced her as rejecting or uncaring -- and this attitude may spill over to the significant women in your life. You may experience difficulties in your relationship to the feminine. In a woman's chart there could be a need to more fully identify with and bring into focus a concept of your own femininity. In a man's chart you may be in relationship to powerful feminine figures, symbolic of the powerful feelings that are denied full expression in your own nature. The lesson for you here is to more fully and deeply understand and value the true roots of your being, leading to a better sense of security and greater self-acceptance.

### **Moon in conjunction (within 4.8 degrees) with Midheaven**

*The strongest blend of the energies represented by these two planets.*

This conjunction gives an emotionally sensitive personality who is nurturing and caring. You may also tend to be dependent on others for your own feelings of self-worth, so that it may be important to you that others look up to you. You do well in a business setting, having a dramatic presence that gives you natural abilities to influence others, and an attitude of caring that makes you easy to get along with. You set priorities based on people rather than strictly on profits. Your personality will always be very involved with your working environment. Your career may also be quite changeable.

### **Mercury in Gemini (22° Gem 20'R) Mercury in the Eleventh House**

The ruler of your Sun sign is characteristic of your personality:

Mercury in Gemini gives a keen, alert and expressive mentality. You have great versatility, and can take up many different skills. You love variety in your life. You are constantly perceiving the world around you, and relaying your perceptions to your mind. You approach mental pursuits in an intellectual rather than a practical way, and tend to prefer breadth in these matters to depth. You speak rapidly and well, and enjoy conversation with many different types of people. You are restless and can be prone to anxiety. Beware of stress to your nerves. It is beneficial for you when you cultivate periods of inner stillness.

Mercury in the Eleventh House represents a strong mental connection between your inner awareness and that of others, in friendships or in the setting of group associations. Your social motivation is strong, and you strive in your communication and contact with others to advance the cause of humanitarian ideals. You also have an inquisitive and scientific mind, with excellent powers of logic and reason, and an insightful and detached mentality. Your thinking is idealistic, yet also well grounded in reality. You are a good judge of character, and you appreciate the beauty of things in the world, but not apart from their utility and ultimate purpose. You enjoy learning in the company of others who share your interests and curiosities. You are in tune with how people within a collective share and integrate ideas. You are a natural conduit for group awareness, and may find yourself a leader in facilitating group dynamics. You benefit when you can grow and express yourself within the context of larger group or collective.

## **Other Natal Planets**

### **Saturn in Cancer (17° Can 23')**

#### **Saturn in the Twelfth House**

Saturn in the Twelfth House (or sign) gives a deepening and concentration, or blockage, with regard to your connection to spiritual unity with All That Is. You have a serious and self-conscious personality. You can be moody and introspective, and are likely to be compassionate and sympathetic to the problems of others. You may at times feel that life is too hard, or that it is beyond your conscious control. You may experience a sense of imprisonment, either real or imagined, or perhaps a strong sense of guilt, which may be generalized rather than specific. You tend to withdraw from the world, or in some way give up control. Or you may overcompensate by trying too hard to achieve control. Your true path lies in soul-level self-sacrifice rather than in the more mundane life of worldly events. You possess, in a very concentrated form, the urge for spiritual evolution that is present in all of us, and which actualizes when you can detach from the personal self and surrender to a mystical union with all of life.

The following applies to your generation as a whole as well as to you personally:

Saturn in Cancer (or the fourth house) gives a deepening and concentrating, or a blockage in the expression of the feelings. You may seem to be rigid and unemotional, or emotionally unavailable. You can be apt to withdraw from too close emotional involvement. You may have had problems with parental care and guidance in your early years, so that your home and family life is quite important to you, but you may feel the need to escape it. You potentially have a fixation with one or both parents, and a tendency to live in the past, and you need to work through your issues in this area. Security is very important, and may take the form of striving for achievement or material rewards. You may display a tendency to introversion. You may also have strong psychic powers. Your lesson is to more fully and deeply understand and value your true origins, leading to a better sense of security and greater self-acceptance. The personal and intimate world of your feelings must be accepted and integrated, rather than remain locked away behind the barriers of fear and

isolation.

### **Uranus in Libra (28° Lib 48'R)** **Uranus in the Fourth House**

Uranus in the Fourth House (or sign) gives an eccentric individual with volatile emotions. You may change your residence frequently. You may also feel insecure at times, possibly stemming from a disrupted home life in your early years. Your home life may have been stimulating and challenging, or else there may have been difficulties, perhaps your parents were quite busy with their own affairs, leaving the children out of the picture. You may have difficulty in being sure of yourself, or become focused on your own subconscious process, and have a strong sense of your own unique individuality. You have the zeal to vision new possibilities for tribal connection. You may become interested in the Environmental movement or other ideas related to reinventing the ecological matrix we all live within. You are on the path of transforming your sense of self, creating integration and stability from your own efforts, rather than what comes through from more conventional attitudes of society or your early parental environment.

The following applies to your generation as a whole as well as to you personally:

Uranus in Libra (or the seventh house) gives an individual who is independent and original in the expression of artistic impulses and relationships. You are a lover of harmony and beauty, and you express this love in your own unique manner. You do not subscribe to a conventional sense of the aesthetic, but are always breaking new ground. You are idealistic and philosophical, and you have a restless interest in new forms of stimulation. There can be problems with marriage in that partners may find you alternately affectionate and uninterested. You are likely to seek a rather unconventional relationship, which allows room for growth on both sides. You need more space in relationship than most, and search for a partner who understands that, and has his or her own unique life perspective. You may also bring new concepts to the area of partnership. Part of your purpose in this life may be the transformation of the partnership energy into a new mode of being that can serve your own interest as well as enliven and invigorate your partner.

### **Chiron in Aries (26° Ari 46')** **Chiron in the Tenth House**

Chiron in the Tenth House (or sign) represents issues with one's vital force to act with authority and make a responsible contribution to society. With this placement you are likely to be somewhat rebellious of authority, and yet compulsively drawn to it as well. You have probably had many experiences in your life where you either had to knuckle under against your will or else over-exerted your authority with others in a way that left them feeling oppressed. The compulsion you may feel to be in authority perhaps arose in your childhood, when you were too forcefully controlled, leading to compensatory behavior as an adult. Everyone has a basic need to be in control, and if distrustful of authority as a result of early experiences, we tend to strike first rather than wait to be pushed around by others. Another manifestation is being drawn to achievement in the eyes of the world, yet feeling ambivalent about your successes. You may feel pushed to success by the important parental figures of your childhood, and never really have a sense of belonging to your own true destiny, rather than acting on behalf of others' beliefs and goals. These feelings are also connected with low self-esteem, and you may seek to be a well-known presence in the world as a way of making up for feelings of lack of self-worth somewhere below your conscious level of reasoning, yet the victory when it comes may be hollow. In order to avoid these traps, it is good to be in more conscious touch with your hidden feelings, and attempt to bring these into the light to explore them in detail. Once you have begun this process, it will continue as

a natural part of your growth, as it becomes easier and easier to confront the scary parts of yourself. At this point you can begin to wield a more conscious and integrated form of personal power.

The following applies to your generation as a whole as well as to you personally:

Chiron in Aries (or the First House) represents issues with one's vital force to be, to act, to initiate. With this placement of Chiron, your very sense of who you are may be threatened by disturbing realizations and painful memories. You may have felt belittled and put down in your formative years, rather than encouraged, by the significant adult figures in your life. Even after reaching maturity, you may encounter obstacles that prevent you from reaching your full potential. These difficulties can set up a pattern for failure, in which you operate more from a fear of failing than the expectation of success that breeds confidence for further achievement. One way this may manifest is in terms of acting not in your own behalf, in furthering your own goals, but rather in behalf of the goals of other people, which seem somehow more important or at least get priority treatment. You may keenly feel a lack of achievement in your own life, and compensate by trying too hard to help these others, putting yourself in the background, as it were. As long as these patterns operate more or less unconsciously, they are difficult to overcome, so the first step in surmounting them is to become more conscious of your own pain; acknowledging and discovering more about what exactly went on in the past to make you feel frustrated with your own abilities. At that point you begin to come out from behind your painful experiences and really show yourself. With a more conscious understanding of your own dynamics you can also begin to truly be of help to others, in how they deal with similar issues, as you start to approach them not from a false sense of vicarious achievement, but from a place of true friendship and helpfulness.

### **N Node in Sagittarius (0° Sag 53')**

#### **N Node in the Fifth House**

Lunar North Node in the Fifth House (or sign). South Node in the eleventh house or sign. This placement gives a personality with a focus on being recognized and admired for the personal creativity that you manifest. You are fortunate in this lifetime, for few people have the capacity, as you do, of actually making your dreams come true. You are engaged in a life-long process of concretizing your thought images, turning the products of your extraordinarily clever intellect into actual manifestation in the world. In the past, or in past lifetimes, you specialized in ideals and imaginings, without giving much thought to working these out in the real world. But as you get on with your life's journey you find that actually manifesting these thought forms becomes more and more your focus. When you are on your true path, you find that you must act and create, for in acting you give form to the otherwise formless and ideal, and in so doing fulfill your destiny.

Lunar North Node in Sagittarius (or the ninth house). South Node in the third house or sign. This placement gives a thoughtful personality, with a focus on understanding moral or ethical belief systems. You may tend to scatter your energies, especially when young. In the past, or in past lifetimes, you concentrated your attention on superficial relationships of the everyday world. Now in this lifetime, your purpose seems to be to lift your attention toward a synthesis of higher consciousness. You will find great joy in pursuing the broader picture, whether in terms of educational perspectives or perhaps participation in cultures other than your own. Although curiosity regarding details and enjoyment of a multiplicity of points of view comes naturally to you, you must now learn to see the forest instead of the trees. Your focus now will become more and more the pursuit of higher knowledge and a deeper understanding of the motivations of others that was meant by the phrase "to understand all is to forgive all." A true philosophy of compassion is your goal.

You are enthusiastic socially and are attracted to the stimulation and excitement of new contacts. You may also be quite unpredictable at times, making it hard for others to get along with you. You are likely to have difficulty, for example, in settling down with one person in a romantic partnership. You may appear to be immature, or self-centered, or lacking in interest in the other person's welfare, although you are also highly idealistic and humane in your outlook. You are unconventional in your attitudes and occupy yourself with multiple interests and explorations. You can benefit from attempting to bring a steady and consistent focus to your many interests and activities, and from recognizing your need for freedom and making space for that need in relationship with others.

### **Venus in strong square (within 1.4 degrees) with Chiron**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

This combination gives a personality that experiences difficulties with relationships. You are likely to have had painful experiences surrounding marriage and intimate partnerships, but there are also great rewards to be gained in this area. You are drawn to relationship at the same time that you fear it, so that you may also have a strong focus on forming close emotional attachments. You may have had early childhood experiences that made it hard to accept the love of others in your adult life. With these distractions, you also may strongly desire to help other people, and yet be unable to give them the full benefit of your higher self. It is good to make the effort to connect yourself consciously with any painful events that may be buried in your unconscious, so that these will no longer have so much power over you. Once you have begun to integrate these painful feelings consciously, and shed the baggage of earlier frustrations, you can be a more fully participating partner to others, and be more of help to them as well.

### **Jupiter in strong square (exact) with Saturn**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

This aspect gives a serious and conscientious personality but one that may be impractical. You are motivated to achieve success, but you are likely to run into some self-imposed barriers on the road to achieving it. There is a gap between your ambition and what you actually accomplish. You tend not to be content with the extent of your responsibilities until you have taken on too much, leading to the problem of actually fulfilling these obligations. You also may have too limited and narrow a view of your potential, so that you aim too low, and garner less than you are capable of. This could lead to problems with your material well-being, or with being too cautious and thrifty for your own good. You can benefit from cultivating a more giving and generous attitude, greater contentment with your present resources, and trying for a better balance between dreams and reality.

### **Jupiter in strong conjunction (within 0.4 degrees) with Midheaven**

*The strongest blend of the energies represented by these two planets.*

This conjunction gives a positive and optimistic personality. You are lucky and are likely to be successful at whatever you strive for. You have an expansive attitude toward new projects, so that there can be almost too much growth potential for you to handle. You have good spirits and are able to see the big picture, so that others find it an inspiration to be around you. You have possibilities for a career in travel or education, or perhaps as a spiritual leader. You may have to beware of too much self-satisfaction however, and benefit from cultivating humility in your dealings with other people.

### **Saturn in strong square (within 0.5 degrees) with Midheaven**

*The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.*

You are persistent and thorough, and may be careful or calculating in your dealings with others. This aspect gives an ambitious and clear-minded individual, with a strong sense of responsibility. You may suffer from feelings of inferiority. You are likely to have had problems in the early life with finding your own identity, independent of parental figures, so that in your adult life you may operate out of a subconscious fear that if you don't conquer the world first, then it will conquer you instead. You also may have difficulties, limitations or delays in the achievement of your goals, but you are likely to achieve success in the end through your tremendous drive to achieve.

You have a brilliant mind, and are undoubtedly a witty conversationalist, although with a slightly erratic tendency to switch topics arbitrarily. This aspect is the hallmark of an inventor or other type of creative thinker, perhaps in the health fields or the helping professions. You are likely to have great difficulties with walking the straight and narrow but something seems to be forcing you to. Or it is a compulsion based on your own painful experiences with authority. It is important to become more conscious of your hidden motivations and patterns, so as not to be ruled by them from below, as it were.

Your excellent reasoning ability and action orientation work well together giving you tremendous analytic talent but not always the enthusiasm and drive to accomplish all that you may. You are always on the go, with a restless nature that is not easily satisfied.

**Mars in opposition  
(within 4.2 degrees) with Pluto**

*The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.*

This aspect gives a personality with a tremendous drive for power and transformation of self. You are strong-willed almost to the point of ruthlessness, and you have enormous energy and endurance at your disposal. You may appear timid or unsure of yourself, since the power urge is commonly repressed, but then there is the potential for sudden bursts of anger due to the repressed emotion finally exploding to the surface. You may also have feelings of insecurity that are compensated for by being overly forceful, acting compulsively or even becoming obsessive about achieving your will. In a more positive manifestation, you can exhibit a dedication to higher ideals and a willingness to be a channel for healing yourself and society. The challenge is movement away from feelings of insecurity and resulting separateness and loneliness, toward a better acceptance of other's needs and opinions in order to generate wholeness, forgiveness towards self and others, and a new and better sense of self-worth.

Although you value your mind, when the Sun and Mercury are quite close to each other, within a degree or so, you may be more inclined to take a broad view of life's activities and not consider things from a strictly mental orientation.

### **Sun in weak trine (within 6.9 degrees) with Pluto**

You also tend to champion the underdog, and react strongly to social injustice. In relationships, you tend to become intensely involved quickly, and stay absorbed in the relationship as long as it lasts. There may be underlying feelings of insecurity leading to your rather self-centered and ego oriented behavior. Exploring these feelings can be incredibly rewarding for you, and should be quite possible, for you have tremendous powers of regeneration and rebirth. When you learn to train your considerable energy on these socially oriented as well as personal goals, you can become a focal point for the transformation of society itself.

You have an unusually clear insight into the emotional depths of other people, which may border on an actual psychic attunement with their states of being. You also have the urge to break through the limitations of the parental influence you experienced as a child. You may have experienced controlling behavior on the part of one or both parents, especially your mother, and you may find yourself still involved in the battle for your own autonomy many years later. These struggles can be worked through in your life, beginning with a deeper understanding of what it is you truly need on an emotional level. Your challenge is to transform

your sense of insecurity, by coming to terms with your survival issues based on a better insight into your own hidden motivations.

You are capable of great belief in the unknown and unproven, and are inclined to the mystical, seeing life in terms of visionary and poetic feelings, rather than in practical terms.
